Corbus Pharmaceuticals Reports Third Quarter 2022 Financial Results and Provides Corporate Update

- •Latest pre-clinical data for CRB-601 monotherapy and in combination with anti-PD1 therapy to be presented this Thursday at SITC 2022
- •IND submission for CRB-601 is on track for mid-2023
- •Expanding oncology pipeline through strategic transactions remains key priority
- •Cash and investments on hand of \$67 million funds operations through the second quarter of 2024

Norwood, MA, November 8, 2022 (GLOBE NEWSWIRE) -- Corbus Pharmaceuticals Holdings, Inc. (NASDAQ: CRBP) ("Corbus" or the "Company"), an oncology company, today provided a corporate update and reported financial results for the third quarter of 2022.

Key Corporate and Program Updates:

- •Anti-integrin monoclonal antibody (mAb) programs targeting the inhibition of TGFβ are progressing on schedule
 - oCRB-601, an anti-ανβ8 mAb, is being developed as a potential treatment for solid tumors.
 - oAcross models explored to-date, CRB-601 demonstrates an enhancement of anti-tumor activity when combined with anti PD-1 therapy compared to either single agent alone. Latest data to be presented this Thursday at SITC 2022.
 - oData supports the hypothesis that blockade of latent TGFb production by CRB-601 can lead to changes in immune cell infiltration in the tumor microenvironment, potentially enhancing the benefit of PD-1 blockade.
 - oIND-enabling activities for CRB-601 are ongoing and the program is on schedule for an IND submission in mid-2023.
 - oRecent clinical updates from investigational therapies also targeting latent TGFb reinforce the promise of this novel approach in oncology.
- •CB1 inverse agonist program for obesity / metabolism
 - oCRB-913, a novel CB1 inverse agonist with highly differentiated PK from other members of its class, has demonstrated weight loss and improvement in multiple metabolic parameters, as monotherapy and in combination within liraglutide, semaglutide and tirzepatide in animal models of diet-induced obesity.
 - oNew data was shared in an oral presentation at the annual meeting of the European Association for the Study of Diabetes (EASD) in September 2022. View the presentation here.
 - oData is being prepared for publication.
 - oCorbus is actively exploring partnerships to advance CRB-913 into clinical studies.
- •A detailed update on the Corbus pipeline can be found in the most recent Corporate Presentation available on the Company's website here.

"We continue to progress CRB-601 toward the clinic on schedule and on budget. Our latest pre-clinical data, to be presented this Thursday at SITC 2022, further reinforces our belief that this could be a highly impactful drug in oncology therapy, and we look forward to the latest clinical updates from this field," commented Yuval Cohen, Ph.D., Chief Executive Officer of Corbus. "We continue to be actively engaged in business development activities with the goal of expanding our pipeline while also bringing in non-dilutive funding by monetizing our portfolio of endocannabinoid assets through new partnerships."

Financial Results for Third Quarter Ended September 30, 2022:

The Company reported a net loss of approximately \$8.8 million, or a net loss per diluted share of \$0.07, for the three months ended September 30, 2022, compared to a net loss of approximately \$2.2 million, or a net loss per diluted share of \$0.02, for the same period in 2021. The prior year third quarter included a \$12.3 million refundable tax credit received from a foreign tax authority.

Operating expenses for Q3 2022 decreased by \$5.8 million to approximately \$8.2 million for the three months ended September 30, 2022, compared to \$14.0 million in the comparable period in the prior year. The decrease was primarily attributable to decreased clinical trial and drug manufacturing costs, and an overall reduction in compensation expense.

In October of 2022, the Company amended its debt agreement with K2 HealthVentures LLC to defer commencement of principal payments by one year until September 2023 which improved the Company's liquidity and cash runway. As of September 30, 2022, the Company has \$67 million of cash and investments on hand which is expected to fund operations through the second quarter of 2024, based on the current planned expenditures.

About Corbus

Corbus is an oncology company committed to helping people defeat serious illness by bringing innovative scientific approaches to well understood biological pathways. Corbus' current pipeline includes anti-integrin monoclonal antibodies that block activation of TGF β and small molecules that activate or inhibit the endocannabinoid system. Corbus is headquartered in Norwood, Massachusetts. For more information on Corbus, visit corbuspharma.com. Connect with us on Twitter, LinkedIn and Facebook.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and Private Securities Litigation Reform Act, as amended, including those relating to the Company's restructuring, trial results, product development, clinical and regulatory timelines, market opportunity, competitive position, possible or assumed future results of operations, business strategies, potential growth opportunities and other statement that are predictive in nature. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industry and markets in which we operate and management's current beliefs and assumptions.

These statements may be identified by the use of forward-looking expressions, including, but not limited to, "expect," "anticipate," "intend," "plan," "believe," "estimate," "potential," "predict," "project," "should," "would" and similar expressions and the negatives of those terms. These statements relate to future events or our financial performance and involve known and unknown risks, uncertainties, and other

factors, including the potential impact of the recent COVID-19 pandemic and the potential impact of sustained social distancing efforts, on our operations, clinical development plans and timelines, which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include those set forth in the Company's filings with the Securities and Exchange Commission. Prospective investors are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date of this press release. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.
